

Coppell High School

In order to establish and maintain a strong, quality program, the following guidelines have been established for CHS Academy students. It is our desire to provide these students with opportunities to excel in their academic studies, participate in field studies in the community, and develop leadership skills.

Each student of CHS Academies and parent(s)/guardian(s) agree to:

- Embrace the unique culture of respect, trust and responsibility and personal expectations which come with the privilege of being an Academy student.
- Accept the additional graduation requirements outlined by the Academy (i.e. additional academy elective classes, college preparation courses, community service, senior capstone project, internship, dual credit requirements, etc.).
- Maintain a passing grade in all course work.
- Represent Coppell High School and fellow Academy students in a positive manner according to the Coppell ISD Student/Parent Handbook (i.e. Code of Conduct, Discipline Plan, Dress Code, etc.)
- Follow “Guidelines for Acceptable Use of Technology Resources “(utilizing school technology ONLY for academic purposes assigned/directed by instructors).
- Actively collaborate with fellow students to develop quality solutions to problems assigned in each class.
- Attend 90% of all field opportunities offered through the CHS Academy (i.e. orientation, team-building, field trips, shadow days, and internships). Permission to be excused from a field opportunity must be obtained from the CHS Academy leader, twenty-four hours prior to the event unless the absence is an illness.
- Commit to at least the first full academic year.
- Accept additional assessments the Academy uses to determine the best path for Individual Graduation Plans.
- Understand that additional school supplies may need to be provided for some of the CHS Academy projects.
- Understand that if class time and work are missed, the student is still responsible for assignments.

I have read and understand the CHS Academy Code of Ethics.
