

## Scarecrow Day

*“BOO!” said the scarecrow to an ornery black crow.  
Mr. Scarecrow knows he plays a very important role in the cycle of the seasons and the production of our farmed food.*

The children love learning about the four seasons and nature. As a celebration of our learning, we will dress as scarecrows and participate in many autumnal activities. The first event of the day is a Scarecrow Parade. Please join us for this event! Bring your cameras and wait in front of the school office. Right after the morning announcements, kindergarten will come parading by! Since everyone will be moving along quickly in the parade, please do not ask any scarecrows to stop and pose for a photo. You are welcome to take pictures of all the scarecrows after the parade, in your child's classroom.
