

CHS9 Summer Reading 2021

The CHS9 English Department encourages independent reading because research and classroom experiences prove that it leads to *better writing, a stronger vocabulary, an increase in practical knowledge, an involvement in the world, lifelong reading habits, and higher standardized scores in ALL subjects*. The titles presented offer a broad range of literary styles, diversity of content, and maturity of language. Students are encouraged to match book selections to personal interests and values. If you need suggestions for reading, any one of the links below will contain engaging selections. Remember to visit the CHS9 library page for information as well.
