Curriculum

Curriculum Planning

- Waiting on state to determine funding for virtual learning.
- Planning and partnering with other districts in discussions about what we would possibly provide.
- Planning on which grade levels, programs, etc. and working on communicating this information. Still waiting on pieces from the state for final requirements synchronous vs. asynchronous. The structure would look very different than what we offered this year for learners and educators.
- Survey to families and application process will take place. Looking at this year's data for learners that were or were not successful with remote instruction in making decisions for who might be a good fit for a Virtual Academy.
