What are they?

Crimini Mushrooms are a small type of mushroom with light-tan coloring. They are also known as “baby bellas.”

What do they taste like?

We can all taste when food is salty or sweet. Right? “UMAMI” is how Mushrooms taste. What’s that? Say “ooo-mommy”. UMAMI is a Japanese word for rich, satisfying flavors. You usually taste UMAMI in meat but mushrooms are full of UMAMI. When you taste your mushrooms, close your eyes and imagine it filling your whole mouth with flavor. That’s UMAMI!
(And now you know a word in Japanese, too!)
